Ownage Fiditech

Frontend Developer

- Achieved a 90% code reuse rate by developing reusable code and libraries, accompanied by comprehensive documentation, resulting in increased efficiency and reduced development time for subsequent projects.
- Achieved a 30% improvement in mobile page load times by implementing responsive design principles, image compression techniques, and server-side optimizations tailored for mobile networks. This effort ensured a seamless experience for users accessing the platform on smartphones and tablets, addressing the growing importance of mobile devices in our user base.
